

# My Shorty

Aaron Carter

Hey girl  
Keep your head high  
I never said I  
Wouldn't be back when I'm  
Leavin' on the red eye

Gotta do this show so I can get my dough  
Lookin' up at the house on top of the hill  
Where we can drop and get ill  
A little spot we can chill  
Or hide out whenever things get real  
Shorty, wontcha tell me how ya feel  
If I will  
How can I be sure  
If your love remains here  
Well, I gotta go  
Until we get this clear  
Ya just gotta know  
When you're not there I be so tight  
No matter what I try, it won't go right

My shorty  
Cause you got my back  
My shorty  
You keep it real like that  
My shorty  
I wanna be where ya at  
My shorty  
That's why I feel like that

Shorty ain't around...  
I don't feel right  
My shorty  
My baby  
My lady  
Come with me  
Shorty ain't around...  
I don't feel right  
My shorty  
My baby  
My lady  
Come with me

On tour 2 months 8 weeks 60 days later  
I threw so many groupies off  
One I even made her cry  
Had to tell her I really didn't hate her right  
Couldn't wait awhile  
'cause we had to say goodbye  
I never thought that I  
Would never see that day that I  
Fall for her the way that I did  
So I will say that I  
Never stray cause I find a better way when  
I hold it down and keep it tight  
Could never say goodbye

My shorty  
'cause you got my back  
My shorty  
We keep it real like that  
My shorty  
I wanna be where ya at  
My shorty  
That's why I'm FELLIN' like that

Shorty ain't around...  
I don't feel right  
My shorty  
My baby  
My lady  
Come with me  
Shorty ain't around...  
I don't feel right  
My shorty  
My baby  
My lady  
Come with me

My shorty...  
My shorty, ain't around

My shorty...  
My shorty, ain't around

Shorty ain't around...  
I don't feel right  
My shorty  
My baby  
My lady  
Come with me  
Shorty ain't around...  
I don't feel right  
My shorty  
My baby  
My lady  
Come with me

Shorty ain't around...  
(My shorty ain't around)  
I don't feel right  
My shorty  
My baby  
My lady  
Come with me
