

One More Night

Aaron Carter

All I need is one more night to make it right now. I don't even want to leave till it slide out, the way you like it, I don't wanna stop it, come on let's rock it. And if you searching for someone to give you the world, come and dance with me till you can't dance anymore oh... I don't want to sleep I just want to give you all that I can..... how?.....

Give me one more night cause I can't get enough
(one more night, one more night)
Give me one more night so I can try to feel.....the love....
.... (one night, one night, would you give me one more night)
(one night, one night would you give me one more night)
(one night, one night will you give me one more night, one night,
one night all we need is one more night)

Push your body past the edge there's no limit every minute has a crazy kind of feeling now everybody's gonna find somebody there's no need to worry (come on) you been working so hard everyday of the week you been thirsty just lose your self in beat so tell the DJ not to stop playing my jam....hey..... ya

Give me one more night cause I can't get enough
(one more night, one more night)
Give me one more night so I can try to feel.....the love....
.... (one night, one night, would you give me one more night)
(one night, one night would you give me one more night)
(one night, one night will you give me one more night, one night,
one night all we need is one more night)
