

# One Thing I Need

Aaron Carter

Baby since I saw you last  
Good fortune's finally come my way  
The lean days are a thing of the past  
But it hasn't changed the way I feel

I can't imagine life without you  
I want you to know

I got all the things that money can buy  
Got enough to enjoy the good life  
But I want to say I'd give it away  
For the one thing I need  
One thing I need  
Baby that's you

I've lived and learned a lesson in life  
That money never buys you love  
I cherish every moment in time  
My mission's to make you mine

Every night I dreamt about you  
Now I want to say

I got all the things that money can buy  
Got enough to enjoy the good life  
But I want to say I'd give it away  
For the one thing I need  
One thing I need  
Baby that's you

I got all the things that money can buy  
Got enough to enjoy the good life  
But I want to say I'd give it away  
For the one thing I need  
One thing I need  
Baby that's you  
One thing I need  
Baby that's you

I never stopped thinking about you  
Kept a photograph next to my bed  
You paint a picture when you smile  
And I need to see, see it again

If I tried now, could I convince you?  
I just got to say

I got all the things that money can buy  
Got enough to enjoy the good life  
But I want to say I'd give it away  
For the one thing I need  
One thing I need  
Baby that's you

I got all the things that money can buy  
Got enough to enjoy the good life  
But I want to say I'd give it away

For the one thing I need  
One thing I need  
Baby that's you

I got all the things that money can buy  
Got enough to enjoy the good life  
But I want to say I'd give it away  
For the one thing I need  
One thing I need  
Baby that's you
