

# Without You

Aaron Carter

I've been around on this journey  
And I'm learning  
As the world keeps turning  
You got a face to fight  
Just live the dream  
Who could've believe  
That one of achieved  
Who would have ever guessed  
It would be like that  
(Come on)

But through it all  
Who's been there for me  
To care with me  
Even shed a tear for me  
You're the one who's kept it real  
So in return this is how I feel  
(Come on)

Do you mind where I came from?  
And I had to tell you in this song  
Without you  
Where would I be?  
(Come on, hit me out now)

No matter where the  
Road may lead me..  
Hometown boy  
Or a face on TV  
It's plain to see  
That without you  
There'd be no me  
(Be no me, come on)

It's a dream that  
I've come so far  
The ups and downs are there  
But I work so hard  
Many people don't know the life I live  
Always on the road, always planning the show  
Getting down to business in the studio  
I can face the day cause the love you give  
Through it all when the day is done  
The nights begun  
You're still my No. 1  
You're the one who's kept it real  
So in return this is how I feel  
(Come on)

Do you mind where I came from?  
And I had to tell you in this song  
Without you  
Where would I be?  
(Come on, hit me out now)

No matter where the  
Road may lead me..

Hometown boy  
Or a face on TV  
It's plain to see  
That without you  
There'd be no me  
(Be no me, come on)

One shout to my family  
Cause when things get hard you understand me  
Two shouts to my boys at home  
Although I'm not there you know you're not alone  
Three shouts to my label  
Cause with them I would not be able to make the fourth  
Shout out the ones I think about  
Masterpiece to the masterplan  
That's you da fans

Do you mind where I came from?  
And I had to tell you in this song  
Without you  
Where would I be?  
(Come on, hit me out now)

No matter where the  
Road may lead me..  
Hometown boy  
Or a face on TV  
It's plain to see  
That without you  
There'd be no me  
(Be no me, come on)

Do you mind where I came from?  
And I had to tell you in this song  
Without you  
Where would I be?  
(Come on, hit me out now)

No matter where the  
Road may lead me..  
Hometown boy  
Or a face on TV  
It's plain to see  
That without you  
There'd be no me  
(Be no me)
