

# Endless Summer

Aaron Lewis

In the mornin' on a Saturday  
I got my girls and we're skippin' town  
In my '67 442 got the rag top down  
Aldean's on the radio  
Ain't it funny how they sing along  
Makes you smile just a little bit  
Because it's not a Miley Cyrus song

These are the moments we can share  
Come on let me take you there

Loadin' up and living right  
Fast cars on a summer night  
Breeze is warm and the moon is bright  
This endless summer

Boogie boards and diggin' holes  
Sand castles and fishin' poles  
What a way to save my soul  
This endless summer

Now we're at our little getaway  
So we go and grab the fishin' poles  
I can't think of any other better way for us to cleanse our souls  
Fresh Striper on the grill tonight  
Cherrystones straight out the shell  
Just another day in paradise, another story I can tell

These are the moments we can share  
Come on let me take you there

Loadin' up and living right  
Fast cars on a summer night  
Breeze is warm and the moon is bright  
This endless summer

Boogie boards and diggin' holes  
Sand castles and fishin' poles  
What a way to save our souls  
This endless summer

Monday morning and it's gettin' late  
There's no traffic at the tollbooth line  
Aldean's on the radio and my three girls know every line

These are the moments we can share  
Come on let me take you there

Loadin' up and living right  
Fast cars on a summer night  
Breeze is warm and the music's right  
This endless summer

Boogie boards and diggin' holes  
Sand castles and fishin' poles  
What a way to save our souls  
This endless summer
