

# Hey Little Alice

Aaron Neville

(Hey little Alice, hey little Alice)

I know a little girl  
Lives down the street (hey little Alice)  
She's a rockin' little mama,  
And she sure is sweet (hey little Alice)  
She comes out early  
With the rising sun (hey little Alice)  
She comes back in the evening  
When the day is done (hey little Alice)  
Night time comes  
And she's out again (hey little Alice)  
Well this time, this is where  
The fun begins (hey little Alice)  
Down at the corner  
There's a local dance (hey little Alice)  
Every weekend there's  
A local band (hey little Alice)  
Featuring nothing  
But rock and roll (hey little Alice)  
Alice wouldn't miss this  
To save her soul (hey little Alice)  
(Hey little Alice, hey little Alice)

I went to the corner  
And walked in the door (hey little Alice)  
Alice as usual  
Had took the floor (hey little Alice)  
Like the girl with  
The red dress on (hey little Alice)  
She could shake that thing  
All night long (hey little Alice)  
Right behind me  
I heard some people say (hey little Alice)  
She never quits until  
The band stops playing (hey little Alice)  
(Hey little Alice, hey little Alice)

I'm talking about Alice now,  
You know she's alright (hey little Alice)  
I said she's alright now,  
I said she's my girl (hey little Alice)  
I'm talking about Alice now,  
I'm talking about Alice now  
Oh yeah now, I said come on, come on
