House On A Hill

Aaron Neville

Tired of livin in a room without curtains Tired of sleepin on the floor without a bed Said if I can't have the good things in life You know I might as well be dead

I want a house on a hill Chorus Tell me wouldn't that be a thrill A Cadillac and a pool Now wouldn't that be cool

Tired of wearin them poor mans shoes And punchin the clock everyday I'm gonna buy myself a ticket on a choo choo train I'm gonna make my get away

Now I got a woman. Says she's crazy about me That's why she's with me every morning, yall About half past three She says come on get up, and get on out the door Because today is only Wednesday and ya got Thursday, Friday to go

Now I got a woman. Says she's crazy about me That's why she's with me every morning, yall About half past three She says come on get up, and get on out the door Because today is only Wednesday and ya got Thursday, Friday to go

Here comes my boss, All up in my face He says you know. You better do a good job Cause you can be replaced

Well lord and I gotta take it Because the money I need Because I got you to cry on And four lil mouths to feed

Now I got a woman. Says she's crazy about me That's why she's with me every morning, yall About half past three She says come on get up, and get on out the door Because today is only Wednesday and ya got Thursday, Friday to go

Now I got a woman. Says she's crazy about me That's why she's with me every morning, yall About half past three She says come on get up, and get on out the door Because today is only Wednesday and ya got Thursday, Friday to go
