

# On My Way To You

Aaron Pritchett

On my way to you  
There was this girl in albuquerque  
I don't think she really meant to hurt me  
But she did  
So what did I do  
Moved in with a girl in knew from college  
If loved walked away I never saw it  
But she did  
A lot of little things fell through  
On my way to you

I hurt I walked  
I ran I crawled  
Let love make me look like a fool  
I lost some time  
Spun these wheels of mine  
Searchin' for the truth  
On my way to you

On my way to you  
I only made one roght decision  
I learned what real love is and isn't  
In your arms  
My aim was true  
True and honest as your blue eyes  
That led me all the way that one night  
To your heart  
Lost my way a time or two  
On my way to you

I hurt I walked  
I ran I crawled  
Let love make me look like a fool  
I lost some time  
Spun these wheels of mine  
Searchin' for the truth  
On my way to you

You were like a brick wall in  
A road I thought would never end  
The open arms that reached out to me  
That arrow out of the blue that went right through me

I hurt I walked  
I ran I crawled  
Let love make me look like a fool  
I lost some time  
Spun these wheels of mine  
Searchin' for the truth  
On my way to you
