

## Running In My Head

Aaron Sprinkle

If I had a dime for every question  
I could buy myself a band to keep the answers in  
When the house you rent was getting painted  
I thought this out and wrote it down and mailed it

When I think of it, it makes me crazy  
And if I hear from you  
You know it will amaze me  
I'm gonna take a train across the river  
And when I see your face I've got a message to deliver

Without a thought you carry on  
And I'll be the last thing on your mind before too long  
You said you'd always love me as a friend  
But you left the water on instead  
You left it running in my head

I've been taaking this from you for much too long  
When my train gets in I'll call you on the telephone  
But before I go can you just tell me  
Did the coffee tea and paperbacks mean anything?

Without a thought you carry on  
And I'll be the last thing on your mind before too long  
You said you'd always love me as a friend  
But you left the water on instead  
You left it running in my head

I went to the train to get my ticket  
And I laid myself out on the tracks derailed it
