

Bayou Baby

Aaron Tippin

I wanna be loved by you, bayou baby
Nobody else but you bayou baby
I searched this world from end to end
I finally found where I should've always been
Right by you, bayou baby

I followed the wind from town to town
Never had a mind of settling down
Falling in love just wasn't my style
But that was before I saw your smile

I wanna be loved by you, bayou baby
Nobody else but you, bayou baby
I searched this world from end to end
I finally found where I should've always been
Right by you, bayou baby

Gonna make my mark, stake my claim
Live right here till my dying day
Close as I can to wherever you are
Till the day comes I win your heart

I wanna be loved by you, bayou baby
Nobody else but you, bayou baby
I searched this world from end to end
I finally found where I should've always been
Right by you, bayou baby

Say I wanna be loved by you, bayou baby
Nobody else but you, bayou baby
I searched this world from end to end
I finally found where I should've always been
Right by you, bayou baby

Everybody now

I wanna be loved by you, bayou baby
Nobody else but you, bayou baby
I searched this world from end to end
I finally found where I should've always been
Right by you, bayou baby
Talkin' out right by you, bayou baby
Right up against you girl, bayou baby
