

# I Believed

Aaron Tippin

In a tiny town where the biggest things  
Were the water tower and a young boy's  
dreams  
I Believed

In a little house of simple means  
Where doing without was a common  
scene  
I Believed

On a dried up square of worthless Earth  
Where we scratched our living out of  
The Dirt  
I Believed

In a little brown church where I first  
heard  
The choir sing and the preacher's word  
I Belived, oh I believed

And the closer that I looked within  
The further I could see  
And I really didn't have much other  
choice  
So, I believed

In a high-rise world of steel and glass  
Where a man dies young if he don't think  
fast  
I Believed

On the streets where the truth is hard  
to find  
And what's in it for me is the bottom line  
I Believed

In a place whre people don't seem to  
care  
They turn their backs like you're not  
there  
I Believed

Yeah, where anything goes, it usually  
does  
I held my breath and bit my tongue  
And I believed, Oh I Believed

In a higher place, in a deeper faith  
In a power stronger than you or me  
I Believed

Now when they put that granite on my  
grave  
All I want that stone to say is  
I Believed

And where I'm from and the woman I love

The job I did and God Above  
I Believed, I Believed, I Believed

I Believed, I Believed, I Believed
