Lost

Aaron Tippin

A couple of bucks worth the change in the ashtray, a half a tan k of Texaco Now you're sitting with your feet on the dash fiddling with the radio Take a left at the edge of town, out where the roads ain't pave d And if we never find our way back, it doesn't matter anyway 'Cause I've been lost since you found me head over heart and so

ul As long as your arms are around me, it don't matter where we go I'm right where I always dreamed that I would be Lost since you found me

We can go to the Oklahoma, take a swim if it gets too hot Or have an ice cold Coca-Cola at the whistle stop I never noticed that a little white house with a for sale sign And I've been up and down this road about a million times

But I've been lost since you found me head over heart and soul As long as your arms are around me, it don't matter where we go I'm right where I always dreamed that I would be Lost since you found me

Ever since you came in sight, I don't know my left from right Where I start or where you end baby, all I know is

I've been lost since you found me head over heart and soul As long as your arms are around me, it don't matter where I go I'm right where I always dreamed that I would be Lost since you found me, since you found me

Lost since you found me, I've been lost since you found me Since you found me, lost, lost, lost, lost, since you found me
