

You've Always Got Me

Aaron Tippin

You say you finally found Mr.Right
He's got you flying like a dime store kite
Well I'll be waiting here on te ground
Look me up if he lets you down

You've always got me to fall back on
A rabbit in your hat an ace in the hole
It might help to know you've got a plan B
Whatever else happens you've always got me

I gave you my heart and my heart is true
I won't take it back no matte why you do
You're gonna have to carry it permanently
No matter who else loves you
You've always got me

You've always got me to fall back on
A rabbit in your hat an ace in the hole
It might help to know you've got a plan B
Whatever else happens you've always got me

Another iron in the fire
Another horse in the barn
Another map to your treasure
An extra safety net another hedge on your bet
A little for good measure

You've always got me to fall back on
A rabbit in your hat an ace in the hole
It might help to know you've got a plan B
Whatever else happens you've always got me

It might help you to know you've got a plan B
Whatever else happens you've always got me
