

# Fool's Paradise

Aaron Watson

I've got this Caribbean queen  
Rubbin' in my coconut sunscreen  
You'd think you'd be the last thing on my mind  
I've got a beautiful ocean view  
Ten thousand miles from you  
So why couldn't I leave this broken heart behind

Oh the sunshine is dancin' on the water  
Pretty girls couldn't get any hotter  
If I keep tellin' myself  
I'm havin' the time of my life  
Maybe it'll come true and I won't miss you  
Welcome to a fool's paradise

Well I keep on tellin' me  
There's other fish in the sea  
But your memory keeps reminding me I'm wrong  
There's a party 'bout every night  
And I should be out doin' it up right  
Instead of watchin' re-  
runs of Gilligan's Island all alone (all night long)

Oh the moonlight is dancin' on the water  
Pretty girls couldn't get any hotter  
If I keep tellin' myself  
I'm havin' the time of my life  
Maybe it'll come true and I won't miss you  
Welcome to a fool's paradise

This time next week I'll be headed to Texas On a big jet airplane  
Oh when I get home you know this broken heart is gonna hit me like a hurricane

Oh the sunshine is dancin' on the water  
Pretty girls couldn't get any hotter  
If I keep tellin' myself  
I'm havin' the time of my life  
Maybe it'll come true and I won't miss you  
Welcome to a fool's paradise
