

Rollercoaster Ride

Aaron Watson

I could still see you standing there
Next to me in the county fair ticket line
With cotton candy in your one hand
And your other hand in mine
Seems just like yesterday
Leather jackets and football games, girl
Come a long way through the years
Had our fair share of heartache and tears

We had our ups and downs and turned around
But our love was stronger than any fight
Even when we lost control, we never let go
We kept on hanging on for dear life
I know, no matter the size of the mountain
You and me will be side by side
Baby, ain't life and love
One big roller coaster ride

Back in the day
We were cool and crazy
Like two outlaws on the run
Making love means making babies
I swear we're have twice the fun
It's been no walk in the park
But then again that's not our style
It wouldn't be too entertaining
Without a little drama every once and awhile

Baby you still drive me crazy
Still make my heart skip a beat
Those butterfly, first time feelings
Always kept me on the edge of my seat

Baby, ain't life and love
One big roller coaster ride
