

Summertime Girl

Aaron Watson

Don't you know life is kinda crazy, what are the
chances that I'd see you here. I think about you round
this time every
year. Racin down this Texas highway, chasing after
dreams of love, I thought I had it all. Dancing with
you down at Gruene
Hall. I smile when I think about

You and me in the cab of that ol pickup truck, our
first kiss my foot slipped off the clutch, bit my lip
and laughed out
loud and your still laughin now. I loved you so much,
both believing in promises we couldn't keep. Havin way
too much fun
and too little sleep. Once upon a time you were my
world, but you'll always be my Summertime Girl.

Our little town was lazy, there wasn't much to do to
pass the time, so we got bored and stole that county
road sign. Just
like you did with my heart, you stole it away and tore
it apart, left it shot full of holes, girl I guess
that's the way it
goes, Lord knows we had a good run

You and me in the cab of that ol pickup truck, our
first kiss my foot slipped off the clutch, bit my lip
and laughed out
loud and your still laughin now. I loved you so much,
both believing in promises we couldn't keep. Havin way
too much fun
and too little sleep. Once upon a time you were my
world, but you'll always be my Summertime Girl.

I thought my heart would stop, yeah I thought my life
would end, when you said goodbye, to my surprise, the
sun came up
again. And when those bluebonnets bloom, it reminds me
of you down on that riverwalk. On that forth of July
let those
fireworks fly. With willie and the boys, Down in
Luckenbach

You and me in the cab of that ol pickup truck, our
first kiss my foot slipped off the clutch, bit my lip
and laughed out
loud and your still laughin now. I loved you so much,
both believing in promises we couldn't keep. Havin way
too much fun
and too little sleep. Once upon a time you were my
world, but you'll always be my Summertime Girl.

You'll always be my Summertime Girl.
