## **That Look**

## **Aaron Watson**

She keeps it all together I always come unwound She's cool calm and collected I wanna paint the town She's like a Sunday morning I'm a dancehall Saturday night She's like a stain glass window I'm a lonestar neon light She has another side That no one sees but me She is the only one That brings me to my knees There's something about Sinatra And a bottle of Chardonnay Without a single word She takes my breath away

When she gets that look in her eyes When she gets that want you Need to love you Right now that kind of look in her eyes She's always lookin' so fine That I can't believe mine And when those stars align Just add a little white wine And moonlight and that girl's off the hook When she's good she's good But even better when she gets that look

She sparkles like a diamond She twinkles like a star She's like a ray of sunshine That always melts my heart And when I'm feeling empty Her love makes me whole Just like a country breeze That soothes my weary soul

When she gets that look in her eyes When she gets that want you Need to love you Right now that kind of look in her eyes She's always lookin' so fine That I can't believe mine And when those stars align Just add a little white wine And moonlight and that girl's off the hook When she's good she's good But even better when she gets that

Slow dancin' Romancin' She's up to something Wearin' nothin' but her beautiful smile She's up to something Wearin' nothin' but a beautiful smile When she gets that look in her eyes When she gets that want you Need to love you Right now that kind of look in her eyes She's always lookin' so fine That I can't believe mine And when those stars align Just add a little white wine And moonlight and that girl's off the hook When she's good she's good But even better when she gets that look

When she's good she's good But even better when she gets that look

There's something about Sinatra And a bottle of Chardonnay Without a single word She takes my breath away

She's like a Sunday morning I'm a Saturday night She's like a stain glass window I'm a neon light
