

# Time Is Of The Essence

Ab-Soul

Fucking wisdom tooth hurt  
Awww maaaaan "Time flies when you're having fun"

I can't even let it breath  
I ain't got a second to spare  
But I'm definitely hair, like fur  
Do you concur?  
I'm only the seed of Herbert the Third  
And the creature conceived in Korea  
Word  
More of a reason to be a overseer  
Four years older than Helina, man we're getting old  
In four years your be a senior, at least I hope  
And hope is all a nigga got  
You put your all in something, then that's all you've  
got  
So why would that lollygag  
Popping four fives, pop a tag  
There's more to life  
I know my wrongs, I know my rights  
And while you jog, I travel at the speed of light  
I see the light, shades on  
You got an Audemars with diamonds in the face, huh

Cause time is of the essence  
You ain't got time for no comments or no suggestions  
But just begging my pardon, enjoying my party  
Cause Ima run the world til my clock stop homey  
Yeah Ima run the world til my clock stop homey  
Cause time is of the essence  
Praying destiny is manifested

Question, how many milliseconds in a year?  
31,558,468,000 and yeah, I googled it  
But which one of you would have counted?  
I thought it was astounding  
My biggest fear is blinking and missing a whole year  
and thinking I was tripping  
Now that's a disappearing act for your ass  
Wesley and Sanaa didn't have it that bad  
My mind travel so fast that I can see the future today  
Trying to escape like a fugitive in 2088, play it safe  
Preparate, you still trying to segregate  
You better be trying to get your ticket on them arks  
they about to make  
Know or be amazed, you caught in a maze  
You need your hair done, you need the brand new Js  
You need your nails done and you need 28s  
So you can skate on them hoes, fuck if they say no,  
there's plenty more

Cause time is of the essence  
You ain't got time for no comments or no suggestions  
But just begging my pardon, enjoying my party  
Cause Ima run the world til my clock stop homey  
Yeah Ima run the world til my clock stop homey  
Cause time is of the essence

Praying destiny is manifested

"Time Flies when your having fun"

Time

Chronomentrophobia, the fear of time

I'm Francis Ford Coppola

The writer of Apocalypse Now is upon us

I guess time is the opponent

With Armageddon approaching, I'm striving to be the  
dopest

Instead of getting prepared, I'm focused on hypnosis

With the flow, yeah I know how close it is

I'd rather match with Soul about who the coldest is

And carry on like I don't notice this

Sprinkle jewels here and there while committing the  
grossest sins

Infinite living just isn't consistent with our  
comprehension

Everything we know has an ending

Analyze time, it means limits, I never knew them

I'm throwing shots back, the world spinning

4026 before our common era man was made

In 2012 we live in terror

Cause time is of the essence

We ain't got time for no comments or no suggestions

But just begging my pardon, enjoying my party

Cause Ima keep spinning until the world stop homey

Yeah, said Ima keep spinning until the world stop homey

Cause time is of the essence

I hope my intellect is manifested

There's so much more I want to say but there's just not  
enough time

Time (4x)
