

## American Holocaust

## Abandon All Ships

We have created  
The humanity destroyer  
All we have hated  
Kill the employer

A product of the 21st century  
I am alone  
Burning in the infirmary  
This is my home

The American dream  
Will die in a waiting room

We need a resolution  
Save our fucking souls  
An honest contribution  
To dig out of these holes

A product of the 21st century  
I am alone  
Burning in the infirmary  
This is my home

I will not die in a waiting room  
the American dream  
a product of the 21st century  
will die in a waiting room
