

## Forever Lonely

### Abandon All Ships

Eventually, you're gonna have to find the hands you trust holding  
Honestly, I think she's bluffing so my hand's not folding  
We're playing games she's pulling every card  
I got something when it gets too hard.

Turn me up when you're feeling low  
Stuck on repeat, I'll never go  
When you feel alone, put on your headphones

Maybe if we drink too much  
Baby we won't think as much  
Lately it must get lonely saying we're just friends  
Baby don't tap out fight it till it ends  
Were playing games, she's putting up her guard  
I got something when it gets too hard.

Turn me up when you're feeling low  
Stuck on repeat, I'll never go  
When you feel alone, put on your headphones

I saw diamonds in her eyes  
Oh, I've already tried  
The noose around your neck  
Will get tighter with every lie.
