## Fluorescein

## **Abandoned Pools**

Wipe away the summer air You don't wanna see That's you in that Photograph from 1973 And you don't even know me

God only Knows I wanna be The other side of misery Gimme a plate of Fluorescein I'm gonna paint an ugly scene All of the things I wanna say Can't get a word out anyway Falling away after today Nothing to lose so come what may

Don't wake me

You got away from me somehow And all we tried to be Everything is different now The mind's eye fails to see

Inside, I rise above this shallow world Inside, I rise above this sorrow

And all we know is TV
