Seed

Abandoned Pools

Hey, you know I really liked your show And hey, I know a place where we could go And you don't have to do this if it's all you want is love But hey, I know you really wanna go

How you wanna do this baby? How you wanna go? Fill up my emptiness it's you I wanna know He's just a boy with a nasty seed to sew

There's no more grace to fall from There's no where left to go but down
