

## Sunny Day

## Abandoned Pools

Hiding inside a crowd  
My head is inside a cloud  
Go where the music's loud  
And all these talking heads are  
Blurred in violet hues

Another Sunny Day

She doesn't know wrong from right  
She doesn't know when to fight  
She only knows that tonight there's always someone out there  
She'll never be alone

Another Sunny Day

C'mon get out

Get off the bathroom floor  
Daddy's not here no more  
I'm showing you to the door  
Enough of always numb and always insecure

Hiding inside a cloud  
Go where the music's loud  
My head is inside a crowd  
And all this talk of rock-stars really makes me sick
