

# Don't Walk Alone

Abattoir

Feelin' hot  
One chance is all you've got  
When you're out on the streets  
You fight for what you keep  
Stand up and fight  
For the wrong side of right  
We'll take matters in our own hands  
Give me the sign so I'll know  
When it's time  
With my license to kill  
I'll fire at will  
Don't walk alone - Don't walk alone  
Don't walk alone - Don't walk alone  
Crimes in the dark  
A survivor is smart  
You're now on your own  
Far away from home  
Stand up and fight  
For the wrong side of right  
We'll take matters in our own hands  
Give me the sign so I'll know  
When it's time  
With my license to kill  
I'll fire at will  
Don't look behind  
When you hear me you'll find  
The kiss of death awaits you ahead  
Don't be afraid  
I'm the man made of steel  
I'm coming to take what is mine  
A silent attack a knife in your back  
This warning I hope  
I hope that you'll find  
Don't walk alone - Don't walk alone  
Don't walk alone - Don't walk alone
