

Heart of the Machine (cover Motorband)

Abband

Blasting sounds ripping the silence
Ears, they could not believe
Hesitate to stop the violence
It's not easy to leave

Prepare here for exclamation
"reach out and touch your faith"
Look forward now, you're unforgiven
Destiny won't wait

Heart of the machine
Chained power inside steelbelting
Heart of the machine
No chance to tame the beat
Don't try it now

False demands on eternity
The hope will never relieve
Indolence of indoctrination
A fool can only achieve

Hunt'em down for desperation
Lock the fortified gate
No matter how, it depends on you
Cure them from malicious hate
