

## Heart of the Machine (cover Motorband)

Abband

Blasting sounds ripping the silence  
Ears, they could not believe  
Hesitate to stop the violence  
It's not easy to leave

Prepare here for exclamation  
"reach out and touch your faith"  
Look forward now, you're unforgiven  
Destiny won't wait

Heart of the machine  
Chained power inside steelbelting  
Heart of the machine  
No chance to tame the beat  
Don't try it now

False demands on eternity  
The hope will never relieve  
Indolence of indoctrination  
A fool can only achieve

Hunt'em down for desperation  
Lock the fortified gate  
No matter how, it depends on you  
Cure them from malicious hate
