

# Only the Best Will Do

ABC

Elegant faces  
Won't you stand aside  
I'm only looking for the real ride  
Now's not the time  
To run away and hide

I've got no time for fakers  
Only the best will do  
Looking through my eyes, baby  
It's such a spectacular view  
Now that these times are changing  
Only the best will do

Pale imitations  
Will fade away  
People are talking  
With nothing to say  
I wouldn't let anyone  
Talk to me that way

You  
Ain't that peculiar  
Neptune's your ruler  
Awake from your slumber  
Give me your number  
How candid the camera  
That captures the best of you  
Only the best will do

Only the best will do  
(repeat with following)

Only the best will do
