

# Show Me

ABC

Once I needed your love  
But that was just one thing left on my mind  
Then I needed to feel you near me  
You said, "Don't have the time"

The cowboys at the rodeo  
The rhine-stones on that romeo  
Your theme tune on the radio  
Souvenirs that only go to

Show me, show me  
Show me that you're mine  
Show me, show me  
Give me just one sign

Show me, show me  
Second that emotion  
Show me, show me love

Since we're skimming the surface, darling  
Now's time to get in deep  
You've opened up the envelope  
But there's still one secret you keep

A pirate station or the late night show  
A sunken ship with a rich cargo  
Buried treasure that the four winds blow  
Wind and rain it only goes to

Show me, show me  
Show me that you're mine  
Show me, show me  
Give me just one sign

Show me, show me  
Second that emotion  
Show me, show me love

Some things are hidden  
Some things you'll see  
Make me know  
Signal to me

Nine out of ten  
In every case  
She might look pretty  
But there's make up on her face

Show me, show me  
Show me that you're mine  
Show me, show me  
Give me just one sign

Show me, show me  
Second that emotion  
Show me, show me love  
And you can be free

And you could be free, free, free

Where are the diamonds?

Where are the curls?

Where are the things that you took from this world?

These are the diamonds

These are the curls

These are the things that you took from this world
