

# Spellbound

ABC

Boy got paparazi  
Rich lead to slum  
Let him think the grass is greener  
It always is for someone  
Pilgrims and penitents saying it's the end of the world  
Let them wallow in their sorrow  
I want to live like there's no tomorrow, with you, girl

World turns (world turns)  
Spins 'round (spins 'round)  
Goes 'round, and around, and around, and around  
I'm spellbound  
All day (all day)  
All night (all night)  
Shake it down, shake it down, shake it down, shake it down  
I'm spellbound

Sun probes and moon shots explore the universe  
Outer space must be a great place  
Yet we're stranded here on Earth  
With tit for tat killers, junkie gurus  
Let them wallow in their sorrow  
I want to live like there's no tomorrow, just with you  
(I want to live, just with you)

World turns (world turns)  
Spins 'round (spins 'round)  
Goes 'round, and around, and around, and around  
I'm spellbound  
All day (all day)  
All night (all night)  
Shake it down, shake it down, shake it down, shake it down  
I'm spellbound (I'm spellbound)  
Spellbound

World turns (world turns)  
Spins 'round (spins 'round)  
Goes 'round, and around, and around, and around  
I'm spellbound  
All day (all day)  
All night (all night)  
Shake it down, shake it down, shake it down, shake it down  
I'm spellbound

When we gonna learn?  
When we gonna learn to turn?  
When we gonna learn to turn this world around?  
When we gonna learn?  
When we gonna learn to turn?  
When we gonna learn to turn this world around?

(When we... when we gonna learn? Show me; show me when)  
When we gonna learn?  
When we gonna learn to turn?  
When we gonna learn to turn this world around?
