

# Prophecy Of The Evening Star

Abigail

From hells heart it is him  
Evening star Lucifer, the light  
Bringing strife and division  
And a hatred of mankind

Blood vapour a mist upon the land  
Tears boil in hellfire  
Prayers to heaven, stopped by sword  
Serpent shadow across the land

Centuries old stories of paradise lost  
Rewritten by cloven hoof  
A prophecy now reality  
Eclipsed - the setting sun

Blood vapour a mist upon the land  
Tears boil in hellfire  
Prayers to heaven, stopped by sword  
Serpent shadow across the land

Serpent shadow across the land  
A prophecy - the setting sun  
A mist across the land

From hells heart it is him  
Evening star Lucifer, the light  
Bringing strife and division  
And a hatred of mankind

Blood vapour a mist upon the land  
Tears boil in hellfire  
Prayers to heaven, stopped by sword  
Serpent shadow across the land
