Desert Rose

abingdon boys school

Concrete surrounding... With a single breath They are freezing my heat From the scar, I'm suffering 'Cause I'm leaving you, being Punished for my sin

No one lives forever (forever more) I can't stay anymore

I'm a criminal Falling out of love Just wanted to know If you really need me;

I'm a criminal Without a doubt You've got to show If you really need me You're my desert rose...

No lights are coming in... But it's not the light Nor the wind I'm missing Wanna hold you in my arms But I'm leaving you, put out of my misery

No one cries forever (forever more) You can't stay anymore (hear my calling)

I'm a criminal Falling out of love I wonder how We ended up like this³

I'm a criminal Always on the run I know I was wrong Let me love you again You're my desert rose;

I'm a criminal Falling out of love Just wanted to know If you really need me;

I'm a criminal Without a doubt You've got to show If you really need me

I'm a criminal Falling out of love I wonder how We ended up like this³

I'm a criminal

Always on the run I know I was wrong Let me love you again You're my desert rose;

I'm a criminal

I'm a criminal Falling out of love Just wanted to know If you really need me You're my desert rose
