

Gloomy news is hittin' the headlines  
So depressin', not a surprise  
Public places, there are no boundaries  
Supervised like we can't be wise  
Who's in control of the disaster?  
Who's in control of your life?

Now it's the time to break out of your cell  
Unchain yourself, don't hesitate  
Pressures like these, unnecessary  
You are here to emancipate  
Just let go of what is inside you  
Show what you got! Go ahead and do your thing!

I'm goin' out here  
I'm gonna meet you there  
Stand up and get a kick out of life!  
I wanna be free yeah!

I'm gettin' up there  
I'm gonna take you there  
It's the beginning of the renaissance  
In the name of freedom!

Bumpin' into gossips, they bore me  
No interest to join the game  
Suffocatin', so ordinary  
Every moment is not the same  
Just let go of what is inside you  
Show what you got! Go ahead and be yourself!
