

Escape the Ground

Abney Park

Well, another light turns out and I'm (?) fallen to the ground
I look around for you
And I'm found

So many years ago we took each others hand
We're still holding after all and we stand

We'll escape the ground and we'll make no sound
And we'll spread our arms and we'll fly

Another trying day, another roadblock in our way
A tragedy to endure in grey
And you fear the men doubt (?)
And I fear you don't love me
Even when we both shout, I reach out

We'll escape the ground and we'll make no sound
And we'll spread our arms and we'll fly
We'll escape the ground and we'll make no sound
And we'll spread our arms and we'll fly

Spoken voice:

We'll escape the ground and we'll make no sound
And we'll spread our arms and we'll fly

We'll escape the ground and we'll make no sound
And we'll spread our arms and we'll fly
