

# The Casbah

Abney Park

We met past sunset on the sands  
And walked together hand in hand  
We shared a night time that was grand  
And we set fire to the land  
We cheated life we cheated death  
We stole with every breath  
And now I feel we'll face the law  
So come with me to the Casbah

La lala la lalala  
La lala la lalala  
La lala la lalala  
La la

The world around us is in flames  
Now I'll never know your name  
We lived a life that's without flaw  
So come with me to the Casbah

We cheated life  
And we fell together on the sands  
And that was the day when we knew  
We both fell  
(repeat x1)

The world around us is in flames  
And I don't even know your name  
We lived a life that's without flaw  
So come with me to the Casbah

We cheated time and we fell together on the sands  
And that was the day when we knew  
We both fell  
(repeat x1)

We cheated time  
And we fell together on the sands  
And that was the day that we knew  
We both fell

We cheated time  
And we fell together on the sands  
And that was the day when we knew  
We both fell
