

## Whole Life Crises

Abney Park

I don't plan to leave a beautiful corpse; I don't plan to live  
life scared  
All those fools believe in safety first; Well, well they're always scared  
When I finally reach my end, I wanna look back with pride  
I may not have had the smoothest trip but, Oh My God what a ride!

(chorus)

I may not live in mansions; I may not live life grand  
But I live life to the fullest, and that's all I have planned

When I see the nameless faces march, heading to their doom  
I fear they sold their life for cheap, live in prison cold room  
But I would rather spend my days, wandering aimlessly  
than waste my life inside a cage, wasted shamefully

(chorus)

If your opinions unsung of all your experiences and you've lived a life unique,  
then some will think you're angry and some will think you're stupid every time you speak

I don't plan to leave a beautiful corpse; I don't plan to live  
life scared  
All those fools believe in safety first; Well, well they're always scared  
When I finally reach my end, I wanna look back with pride  
I may not have had the smoothest trip but, Oh My God what a ride!

(chorus x2)
