

# The Foul Nucleus of Resurrection

Aborted

Partaking studies of what death was supposed to be  
Irreversible - chemical reality  
Revive the dead into a haze of gore and guts  
Incessant miscreants, to chew on those I abhor

The Nucleus of resurrection  
Enthral the dead in my collection...  
Of masticated rot  
The nucleus of resurrection  
One with the dead

Conclude the formula to erase the final barrier  
Raise the stiffes, kill the living  
Contagious levels sullied my virtuous claim  
Irresponsible - morgue set ablaze

The nucleus of resurrection  
Legions of parasites incubated  
Voracious war, set to the fore  
Appalling butchery, the animate exhale no more
