Humechanics-Virus

Aborym

```
Create a real time version
Of a new kind of chain reaction
Clock wise different effect
Renames the system master

Calculated process rewrites
The central memory
Formatting program maximise
The sense-fuctions
Altering resolution generates
Complete conversion

Protections:

Included ability of using the
Inverse polarised gravitation
Great adaptability to the
Different extreme conditions
Vision invisible option
Supported amorphing mode

In the fire balls of the Humechanics
Embryonary machines been constructed
Under the protokoll of the
Master of the reclone department
```
