## **Happiness**

Abra Moore

I didn't know it could feel like this I didn't know the hurt And I try to explain to myself But I can't find no word

So I lie about it And I tell 'em I'm feeling fine And I'll cry about it Hoping tomorrow will change my mind

Happiness has come to this And God, it's such a heavy burden to bear

I didn't know it could be like this I didn't know it could go so far And I try to reveal the part of me But you can't find no scar

And I lie about it And I tell 'em I'm feeling fine And I cry about it Hoping tomorrow will change my mind

Happiness has come to this And God, it's such a heavy burden to bear
