

You

Abra Moore

Hey, you, you are the one for me
And you, you're making me feel all right
And when you smile, I can't help it if I fall
And when you speak to me like that
I will answer every calling

'Cause we, we are the ones who can feel it
And we, we're making it feel all right

The way you go, love will follow
Where you go, my love will follow you
Where you go, love will follow, follow
And you, yeah, my love will follow, follow
And you, my love will follow, follow

And you, you are the one for me
And you, you're making me feel all right
'Cause where you go love will follow
Where you go, my love will follow you
Where you go, love will follow, follow

You, my love will follow, follow
And you, my love will follow, follow
