

## Beneath A Blood Red Sun

Abscess

Grim serpents, rise entwined  
Can't remember when the noose was satisfied  
Pigs blood splashes, deep red sketches  
Deathworms feed on pain  
I'm damned in acid, skinned again  
Senseless stitching, too much flesh to spend  
Wheels of bone, death trip set  
Bleeding toward the end  
Burial meltdown, gods in flames  
Throne of ash, all hail insane  
Beneath the fucking blood red sun  
Comets burn my veins  
Wicked are the teeth of the beast  
Blood drenched dawn, rituals obscene

Beneath the fucking blood red sun  
Comets burn my veins
