

## Empty Horizon

Abscess

The unhealing wound  
Existing only to consume  
Eat flesh, swallow life  
It's inside of you

Inherintly unpure  
Not of this world  
Ancient conscious drives  
Insistent holocaust

March onward into empty horizons  
March onward into empty horizons  
Heavy the air, Armageddon dawns  
We march, we rot  
On empty horizons
