

# Earth Ripper

Absu

Preparedness in Magic(k) is as important as it is in War.  
I am the Master of Magic(k) in its greatest and highest sense.  
Never to fail, by will or weakness, I make the self-  
annihilation absolute.  
I am none the less a thrusting force into the Abyss.  
From the void comes a blare, yet a star which rips the Earth,  
And our Order rejoices above that Abyss.  
The Beast hath begotten one more asp in the Womb of the Queen,  
His Concubine, The Scarlet Woman...

1st verse

Invoking frequently, formless fires altered states  
The Sun's flares drenched the land beyond the seas (stars abide not)  
Celestial disturbance caused sweeping climate changes  
The dryness, pestilence was firstly observed by Ea

Chorus:

The Earth ripped  
Concords were lost  
The Earth cleaved  
Distress was fostered  
The Earth wrenched  
Closing rived skies  
The Earth cracked  
Life and death vacuumed

All time crushed back into unblest everlastingness  
The Plenum's overwhelmed by the sphere's desolation  
Periapts and symbols warn of an impending spate  
All of Anunnaki fled in broad trepidation

Chorus

2x

There is no hope in preserving  
The globe's swollen from the crumbling  
It's distended and withdrawing

Bridge 2x:

From the confines of space, the terrain collapsed...  
Hath passed, golden twilight dropped before faces

Repeat 1st verse

Chorus
