

## First Winter Of Bloodred Snow

Absurd

Silence in the woods  
nobody seems to be here  
black ice covers the floods  
cursed the cound, show no fear

The knives of revenge  
are waiting to kill  
at darkest night  
the blood to spill  
enemies are slaughtered, never to be found  
their mutilated bodies buried in the winterly ground

See fear in their eyes  
thats the reward for your lies  
your fuckin hearts I pull to pieces  
I love your deathscreams sound  
I broke your bones and cracked your heads  
the Pagan madness heres around  
I eat your guts and soak your blood  
the first time it colours the snowy ground

First winter of bloodred snow  
victory for us or the grave below  
first winter of bloodred snow  
join the Pagan killer show!!!
