

All It Is

Absynthe Minded

I'll never think I've come a long way baby
'Cause there's a road ahead of us
And I don't mind being underestimated
By twelve-year-olds who're thirty-three
I kinda feel it in my bones and brains
It's that rush of blood to my head
That makes it all evolve, yeah baby

That's all it takes
That's all it takes
That's all it takes
You must remember this

I know it's a matter of time, yeah baby
That's all we're supposed to do
Never forget it's just a ride, yeah baby
That's what it all comes down to
Let's try to reach another high
Let's go with the flow
Because this life is just a ride, yeah baby

That's all it is
That's all it is
That's all it is
You must remember this

You must remember this
You must remember this
You must remember this
You must remember this
That's all it is
That's all it is
You must remember this
