

Ask Me Anything

Absynthe Minded

I'm in a pool of black bile
It seems like every second
Is like a door that opens
To allow in
What has not yet happened

I'm not the sanguine type,
Related to the blood
I think my head will fall off
If I don't stop it
From Turning around

I'm like a cat on a wire
Balancing so carelessly
Unafraid and in expectancy
Of something good
And never seen

I won't be so pleased
The next day
Right now I can't
Get enough
She's like a broken flower
Never ever in love

I gotta go
I got a better view on
The other side of town

Get it over with
All that's good and bad
That's all gone

I know it's hard to get
But these things
You better just don't know

A water vapour curtain
I ain't looking at the time
She hit me with an arrow
Right through my spine

It's about time for farewell
So easy to be
She's like a broken flower
She's just like me

I gotta go
I got a better view on
The other side of town

Get it over with
All that's good and bad
That's all gone
I know it's hard to get
But these things
You better just don't know

It's gonna be
Seven seconds of silence
When I'm home
You shouldn't
Ask me anything
That you don't
Wanna know
