

Burning For You Baby

Absynthe Minded

I'm an addict to your flesh
The touching's good you want it too
The sounds you make is all it takes
To get me all wound up

You're a hazard to my health
All I do is wanting you
Let's forget the etiquette
The deal is over don't you think

And I am burnin' for you baby
Moist is good it's like you should be
You'll have to go slower baby
Just take your time and feel it with me

Put on the good lights in a pink dress

And you ain't wearin' nothing under that
And then you come to qsit on top of me
You shake me all night long

And then you put me in a full orbit
It took a while but shure you did
We say goodnight you turn around
I smoke the cigarette

And I am burnin' for you baby
Moist is good it's like you should be
You'll have to go slower baby
Just take your time and feel it with me
