

# I Wanna Forget

Absynthe Minded

Wanna forget  
everything I know  
I wanna neglect  
everything I shouldn't

no man's land is  
where I'm going  
I just took off and  
I started driving  
I left my house  
and all my belongings  
I'm ready for  
the next episode

words are ringing in my ear  
words that I don't wanna hear  
I'm tired of this life  
I'm leaving all behind

no man's land is  
where I'm going  
I just took off and  
I started driving  
I left my house  
and all my belongings  
I'm ready for  
the next episode

there's nothing  
gonna stop me  
from doing what I gotta do  
remember that  
whatever you do  
it'll come back to you  
I wish there was  
a different way of  
showing you the truth  
but I gotta move
