

## Substitute

Absynthe Minded

There is a sticky feeling  
'bout that pleasant evening  
a red army attack  
in every women's sack  
a particular way of sayin'  
ba ideas ain't stayin'  
the worst idea is prayin'  
that all wll be good

there's a substitute  
like always it's so cheap  
yeah there's a funky road where you never fall asleep  
there's a club where you can dance  
you can dance away the night  
I wanna dance away the time let's never look behind

here's a little sayin'  
I'll always hold on to  
as long as you can think of  
things to make and to do  
you won't need no prayin'  
the spirit's is within you  
and it's ever present  
as long as you let it to

there's a substitute  
like always it's so cheap  
there's a funky road where you never fall asleep  
there's a club where you can dance  
you can dance away the night  
I wanna dance away the time let's never look behind

there's a place to hide  
people always fall back to  
nature will provide  
the future needs a little truth

yeah there's a substitute  
like always it's so cheap  
there's a funky road where you never fall asleep  
there's a club where you can dance  
you can dance away the night  
I wanna dance away the time let's never look behind
