

# Anything Goes

AC/DC

Got a taste of a rocking band  
Standing there holding out your hand  
Better lock up all your doors  
She's like a spinning dynamo  
You're handing out the token prize  
Giving you a brand new ride

Ooh there she goes she goes  
And nobody knows  
Where she goes she goes

Banging drums working out 'all fast'  
Heavy tune I can play it loud  
You know she's blowing away all the others  
You're never man enough, take it on all night  
You better razzle dazzle on that stage  
Keep on rocking on all through the night

Ooh there she goes she goes  
And nobody knows  
Where she goes she goes

A heavy rocking tune is playing  
Playing as the night rolls on  
Sneaking off with the Romeo  
Where she goes nobody knows

A heavy rocking tune is playing  
On a flat screen colour tv  
Sneaking over, creepy crawly  
Never give it up to take it out through the night

There she goes she goes  
And nobody knows  
There she goes she goes  
And nobody knows  
Where she goes she goes  
And nobody knows  
Where she goes she goes  
And nobody knows  
Where she goes she goes
