

# Let's Make It

AC/DC

Hey sugar baby  
So hot and tasty  
Come on gimme some love you're driving me wild  
It's way past midnight  
Why don't we take a ride  
We'll make some honey as we're cruisin' real slow  
Let's make it, don't waste it  
Let's make it come on and taste it  
Let's make it, don't waste it  
Let's make it come on and taste it

I'll be your ladies man  
If you give me the chance  
We'll keep on jumpin' 'til the music run dry  
And if we take a rest  
We'll smoke some cigarettes  
And start a smokin' goin' out of control  
Let's make it, don't waste it  
Let's make it come on and taste it  
Let's make it, don't waste it  
Let's make it come on and taste it

Let's not waste it  
We're gonna make it

Let's make it, don't waste it  
Let's make it come on and taste it  
Let's make it, don't waste it  
Let's make it come on and taste it

Let's not waste it  
We're gonna make it

Let's make it, don't waste it  
Let's make it come on and taste it  
Let's make it, don't waste it  
Let's make it come on and taste it
